

August 24, 2020

Attention: Union and Trade Partners

The COVID-19 pandemic has brought many challenges to Ontario workplaces. And at IHSA, we are very proud of how Ontario employers and workers have responded to these challenges; how maintaining our collective health and safety has remained a top priority.

This pandemic has made health and safety a significant and widely discussed topic. IHSA is hopeful that this momentum will continue in not only addressing hazards related to COVID-19 but also in bringing additional focus to all hazards in all workplaces.

IHSA is in the process of formulating a new strategic plan that will begin in 2021.

An extremely valuable part of this process is receiving input from our partners and stakeholders. As such, we have created a survey that will allow you to provide important input that will help guide IHSA in developing our strategic plan and to ensure it aligns with future workplace needs of the sectors we serve.

We ask that you please take the time to contribute to this important process. (The survey should take approximately 10 minutes to complete.) Together, our combined efforts will continue making Ontario one of the safest and healthiest places to work.

If you have any questions regarding this survey, we encourage you to contact Ken Rayner at (416) 452-2160 or krayner@ihsa.ca.

With sincerest thanks,

IHSA Strategic Plan Working Group
