Choice Choose IBEW”***

WHY CHOOSE UNION?

A UNION IS AN OPTION!

Some workers do not want to pay union dues. Statistics Canada reports that on average of all working Canadians, unionized workers make 23% more than non-union workers; 23% is a lot to pay to not belong to a union.

Of course, that's not to say that becoming unionized will increase your wage by 23%. It does however tell you that by doing nothing, you are likely to remain at the discretion of your employer for wage and benefit improvements.

How well any unionized workers do in the negotiations is subject to many factors but the most important one is the determination of the workers to receive fair compensation for the services they provide.
